

4 HEAD CRIMPING MACHINE

- Digital crimping machine for window sash and frames
- Simultaneous crimping of 4 frame corners
- Automatic feeding and evacuation by motorized belts

TECHNICAL DATA

- Digital crimping machine
- 4 angles handled at the same time
- Automatic crimping machine
- Monitoring and adjustment of operations using Windows XP PC panel and barcode reader
- Passage of the whole production (sash and frames)
- Crimping process in any position and in any angle, with numerical positioning height way of knives depending on the size of the profile
- More than 30 digitized axes
- Possibility of lifting and evacuate frames by conveyor in optional
- Processing time : between 45 and 120 sec per frame
- Mini frame dimensions : 500 x 600 mm
- Maxi frame dimensions : 2500 x 6000 mm
- Optional : 2+2 head Modus for to reduce the minimum dimensions of the frame.
Mini frame dimensions : 500 x 400 mm
- Air pressure : 6 bars
- Power : 20 kW - 34A
- Supply voltage : 400 3-phase V + neutral + earth
- Dimensions of the machine (L x W) : 2500 x 3500 mm
- Weight : 5500 Kg
